GPS Insight Ranked on the 2016 Inc. 5000 for the Seventh Consecutive Year

Scottsdale, AZ— — Inc. magazine ranked GPS Insight number 3,668 with three-year sales growth of 85% on its 35th annual Inc. 5000, an exclusive ranking of the nation's fastest-growing private companies. Very few GPS [fleet tracking](#) software companies have ever made the Inc.500/5000 list. This is the seventh consecutive year that GPS Insight has been named an honoree.

“GPS Insight is happy to be included on the Inc. 500/5000 list for our [7th year in a row](#). We appreciate Inc. for honoring growing privately held companies and detailing their impressive accomplishments,” stated Robert Donat, Founder & CEO of GPS Insight.

“The Inc. 5000 list stands out where it really counts,” says Inc. President and Editor-In-Chief Eric Schurenberg. “It honors real achievement by a founder or a team of them. No one makes the Inc. 5000 without building something great – usually from scratch. That’s one of the hardest things to do in business, as every company founder knows. But without it, free enterprise fails.”

The Inc. 5000’s aggregate revenue is \$200 billion, and the companies on the list collectively generated 640,000 jobs over the past three years, or about 8% of all jobs created in the entire economy during that period. Complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found at <http://www.inc.com/inc5000/list/2016>.
